

The NH Energy & Climate Collaborative is sharing success stories on our progress toward implementation of the state's Climate Action Plan. Learn more about one of our partners!!

900 Degrees Neapolitan Pizzeria Manchester, New Hampshire

900 Degrees is committed to continually evaluating our operations in order to employ more environmentally friendly methods of providing the best service to our guests. We believe that each initiative that we pursue with the help of our guests, no matter how small, helps to preserve our beautiful state for future generations. 900 Degrees was the FIRST Environmental Champion Restaurant in the New Hampshire Sustainable Lodging & Restaurant Program.

ENERGY EFFICIENCY

- Energy efficient fluorescent lighting has been installed
- Occupancy sensors in restrooms to control lighting
- Policy to replace existing appliances with Energy Star models
- Daylight timer on patio
- The oven uses wood fire energy as opposed to electrical energy.

WATER CONSERVATION

- We have installed low flow pre-wash rinse devices in the kitchen
- Procedures to detect and repair leaking toilets or faucets have been implemented

WASTE REDUCTION

- Recycling facilities are provided in the office
- Cardboard dumpster is located outside
- Local produce is used to reduce transportation pollution
- We purchase organically produced product, when available, from local producers
- Our booths are from an old restaurant and were refurbished
- Old/worn towels are used as cleaning rags
- All dinnerware is reusable
- Biodegradable take-home containers are used

We are proud to say, that in April, our employees participated in the New England Carbon Challenge's Employee Challenge. 900o has committed to 36,055 CO2 pounds to be reduced, and saved \$3,465 in energy costs.

The NH Energy & Climate Collaborative collects and shares stories on progress toward implementing the recommendation in the State Climate Action Plan. To read more stories, visit us at:
