

The New Hampshire Energy and Climate Collaborative

The collaborative was established to track and facilitate implementation of the recommendations of the 2009 NH Climate Action Plan. To accomplish this, the collaborative will:

- Serve as a hub for information on statewide energy and climate action in NH
- Connect institutions, individuals, and networks that are active in the New Hampshire energy and climate arena
- When necessary, provide a forum for problem-solving on energy and climate issues in the state that are not addressed by existing institutions, individuals, and networks
- Track progress of statewide actions against the 67 recommendations in the Climate Action Plan
- Share stories through a variety of communication avenues.
